SUMMARY

I'm a passionate and detail-oriented Front-End Developer with a strong foundation in HTML, CSS, and JavaScript. I thrive on creating intuitive and dynamic user experiences and have hands-on experience with modern libraries and frameworks like React. I'm always eager to learn and explore new technologies to enhance my expertise. Currently, I'm looking for opportunities to kickstart my career and contribute to innovative teams.

EDUCATION

Bachelor of Arts - BA

University of Kota

📅 07/2021 - 07/2024 📍 Kota, Rajasthan

PROJECTS

Movie Mania

🌐 <https://movie-mania-2024.netlify.app/>

Created Movie Mania, a web application that fetches and displays movie information using the OMDb API. Users can search for their favorite films, view details, and explore genres. The app features a responsive design for optimal user experience on any device.

Tech Stack :- HTML, CSS, React.js , OMDb API

24/7 News App

🌐 <https://github.com/alsami-ansari/News-app>

Developed a comprehensive News App that provides users with real-time news updates from various sources using the Free News API. The app features an intuitive interface that allows users to browse, search, and filter news articles by category and date. By integrating the API, it fetches the latest headlines and articles, ensuring users stay informed about current events. The application is designed with responsiveness in mind, providing an optimal experience across all devices.

Tech Stack :- HTML, CSS, React.js , FreeNews API

Restaurantly Website Template

🌐 <https://alsami-ansari.github.io/Restaurantly/>

Designed a responsive template using Bootstrap with a modern layout suitable for various applications. It features customizable components like navigation bars, cards, and forms, enhancing user experience. This project highlights my skills in front-end development and responsive design.

Tech Stack :- HTML, CSS, Bootstrap, Javascript

To-Do App

🌐 <https://tasktrack-todo.netlify.app/>

Built a dynamic to-do app using JavaScript, HTML, and CSS. Features include task creation, editing, and deletion with local storage for data persistence. The app is fully responsive, ensuring usability across all devices.

Tech Stack :- HTML, CSS, Javascript
